## Yamaha 700R Super Rallye

We have been developing and building race vehicles for many years. Based on the popular Yamaha 700R, we have perfected not only a very powerful but also one of the most reliable long-range off-road racing ATVs. Successfully conquering the Dakar 4 times in a row without any vehicle based failures certifies our build.

We can build an ATV according to your preferences, set up to perfectly fit your demands. **Simply complete the checklist:**
